

Lara Melo

UX/UI Designer & Frontend Engineer

Balancing **user needs** with **business goals** from research to implementation, I work proactively and independently while bringing a positive, collaborative spirit to cross-functional teams.

EXPERIENCE

BMW AG, Munich — *UX/UI Designer & Community Manager*

May 2024 - October 2024, Internship

- Assisted in designing BMW's internal no-code platform with PowerApps, supporting thousands of employees across purchasing, quality and supply chain departments in digitizing their workflows
- Independently supported and designed app templates for the BMW Group's developer community, reducing development time by eliminating the need to rebuild UI foundations and ensuring brand consistency
- Ensured UI/UX compliance by acting as interface between DevOps teams and business stakeholders, translating user needs into technical requirements
- Conducted pre-release testing and maintained UI documentation in Confluence, preventing post-launch rework and ensuring consistency across devices

EDUCATION

Uniamérica, Espírito Santo, Brazil — *Computer Engineering & Internet*

Systems, Dual B.Tech Degree Program July 2022 - Present (expected Dec 2027)

Specialization in software development, interface design, hardware systems, and automation solutions.

University of Vila Velha (UVV), Espírito Santo, Brazil — *B. A Advertising and Marketing* July 2021 - July 2022

Foundation studies in communication, consumer behavior, graphic design, and advertising strategies, providing a strong basis for UX design work.

PROJECTS & PROFESSIONAL DEVELOPMENT

UX Consulting & Online Learning January 2024 - Present

- Applied UX research methods in university extension projects with Brazilian companies, identifying pain points and informing strategic recommendations
- Ongoing training in Web Development and UX portfolio case studies
